- 1 - Introduction

Goats were immunized to produce these high-quality secondary antibodies. A complete mouse antibody fraction was used for the immunization to receive high specific secondary antibodies for all applications.

The antibodies were conjugated to HRP (Horse Radish Peroxidase) for the use in WesternBlot, ELISA, Immuno-Histo-Chemistry or similar applications. The antibody is compatible to dyes like ABTS or TMB. The peroxidase has a RZ-Value of > 3, 1000 ABTS U/mg or 300 Pyrogallol U/mg. The conjugation was performed in an equivalent ratio: Antibody to HRP (1:1).

Information

Not for diagnostic or therapeutic use. Not for human use. For research purposes only. This product is not a medical device.
Not for use in in vitro diagnostic procedure for clinical diagnosis. Custom tests must be done to determine the ability for a specific use.

- 3 - Special Handling

Do not add Sodium Azide (NaN₃) to this antibody. Sodium Azide may inhibit the activity of the enzyme irreversible. Preservation can be done with 0.02% Merthiolate or Thymol.

- 4 - Information

Handling

Preservation Thymol

Storage Conditions 2 – 8°C

The antibody fraction has an expiration date of 6 months at 2 - 4°C. In many cases the fraction is stable for years.
